Ref.: Application No. 10/813,804

Applicant: Po, Tommy CHI FAI

Date: 26-June-2005

Dear Hyder Ali,

cc. Henry Yuen

Regarding to my patent application, an office Action Summary from U.S. Patent and Trademark Office was received on 02-June-2005.

Marks & Clerks submitted my application and the above-mentioned summary were not received earlier. I do not have sufficient time to response. I understand that the period for reply is set to expire 3 months from the mailing date of the said communication.

Now, I would like to ask if you may assist me to extend the period and I will prepare a full response then.

I have studied the paper, which came with the communication. My invention is totally based on a different idea and design. The main part of my invention is the high-pressure combustion chamber. Please excuse me because I am a Chinese, I am not possible to write the whole idea in English and that is the reason why I have to ask Marks & Clerks for assisting me in the applications.

Please provide me with your full postal address and I will forward the original document for your reference.

For any further communications, you may contact me at my e-mail address as followed. tpfamily@netvigator.com or by fax: 852-24820987

Tommy, Po Chi-Fai
